## ARGENTUM 4000

ARGENTUM 4000	Satellite	Center	Subwoofer
Principle	2-way, closed	3-way, closed	active, bass reflex
Nom./Music power (W)	50/80	90/130	70/100
Frequency response (Hz)	65...25.000	65...25.000	33...(50...150)
Efficiency (dB/1W/1m)	85	85	
Speaker			
Tweeter	19 mm Ø silk dome	19 mm Ø silk dome	-
Midrange	-	125 mm Ø	-
Woofer	125 mm Ø	125 mm Ø	220 mm Ø
Dimension (HxWxD) cm	17,54 x 12,5 x 13,8	12,5 x 31,0 x 13,8	32,6 x 29,6 x 31,5
Finish	black, white	black, white	black, white

The demands on the good and beautiful have reached new levels. Take a second look at these old friends and you will rediscover familiar sound being brought to you by the quadral ARGENTUM range.

Pleasure from music can originate from the silky elegance of the concert violin, the stirring riffs from the rock guitar or the brutal beat of a techno-anthem. All of the speakers in the ARGENTUM range always deliver optimum reproduction, regardless of whether they are being used in a pure stereo combination or in a surround setup. Their technology makes them extremely versatile and it takes them across exciting boundaries.

An intricate frequency separating filters produce the clear lines and together with the sophisticated coating of the cone membranes they ensure well-balanced and exemplary neutral acoustics. The silver colour of the membrane harmonises with the high-gloss front finish and the clear lines.

The ARGENTUM rang has been optimised by using an improved chassis with stronger magnets.

ARGENTUM	490	470	430	420	410 BASE
Principle	3-way bass reflex	3-way bass reflex	3-way bass reflex	2-way bass reflex	3-way closed

Finish	black, white	black, white	black, white	black, white	black, white

## Facts new ARGENTUM 4xxx range

- ✓ New SACD tweeter — extremely light silk dome with extended frequency response up to 35kHz.
- ✓ 18 cm woofers with aluminium plated polypropylene cone help to qualify these to get acoustically very close to CHROMIUM STYLE and SIGNO AVANTGARDE performance
- ✓ Aluminium voice-coil carrier for high power handling
- ✓ Baffle with high-gloss varnish, 22mm / cabinet 19 mm + extensive embracement
- ✓ Improved chassis material (cones, spiders and motor parts); new 4.5inch “pure” midrange driver
- ✓ Advanced crossover design with high numbers of components for best results in linearity and crossover behaviour
- ✓ Uncritical impedance allows combination with almost any amplifier
- ✓ ARGENTUM 430 as unique 3-way book shelf speaker for best midrange performance!
- ✓ New, attractive design for any interior
- ✓ Gold-plated stereo terminals
- ✓ White speakers come with white front grill
